Clinical Director: Ghazi JERBI, PhD

Because cancer can significantly impact part or the whole of the patient's body and the course of the disease can differ from one case to another, International Hannibal Clinic offers the most qualified experts in this field. Our highly qualified oncologists, among the best doctors in the country, are responsible for personally monitoring patients to determine the best possible treatment for each case and solutions for different diseases. By bringing together the most renowned oncologists in respective fields and thanks to its technological resources, International Hannibal Clinic offers the best possible framework for consultations, treatments, and post-operative follow-up to patients. The research carried out in oncology in Tunisia in our laboratories is performed with the greatest dedication and testifies our patients' unconditional effort to offer ever more effective and painless cures.
