Clinical Director: Michalis Theophanous, MD

VISION Our vision at the Breast Center of Cyprus is to instil a sense of patient confidence through superior patient-centered care and to be characterized as:

- The facility of choice for women in Cyprus to obtain accurate and timely diagnosis of breast disease for patients
- The facility of choice to attract and retain highly dedicated, highly specialized radiologists, technologists and staff
- A gathering place for multi-disciplinary medical teams to discuss every aspect of breast diagnosis and treatment.
- To provide sustainable breast health services to all women in our country in a caring environment that fosters confidence, comfort, peace and dignity for each individual.

MISSION The creation of a state-of-the-art center which provides services concerning the diagnosis and treatment of patients with benign or malignant breast disorders, according to the international standards and guidelines, offering a pleasant, friendly and technologically advanced environment. The center will consist of health professionals of various specializations for a more rounded multi-professional and multi-disciplinary approach. The focal point will be the patient not the disease.
